Education

Bachelor of Science in Computer Science, University of North Alabama, Anticipated May 2026

Minor: Mathematics

Honors: Cole Honors College

GPA: 3.76

Bachelor of Science in Information Technology, University of North Alabama, Anticipated May 2026

Minor: Data Analytics

Concentration: Software Development

Honors: Cole Honors College

GPA: 3.76

Associate of Applied Science in Computer Information Systems, Calhoun Community College, May 13, 2022

Concentration: Cybersecurity/Information Technology

Honors: Summa Cum Laude

GPA: 3.86

Computer Skills

- Developed networking, maintenance, security, and other basic computer skills
- Developed skills in Microsoft PowerPoint, Word and Excel
- Developed basic skills in the Linux, Windows and MAC Operating systems
- Developed skills in the programming languages: Java, Python, C++ and C#
- Developed basic skills in the query language Oracle 12c SQL
- Developed skills in the statistical programming language R
- Certified in the following CompTIA certifications: ITF+, A+, Network+, Security+, Linux+
- Short Term Certificates: Computer Technician, Server Administration, Cyber Security Essentials, CCNA Preparation

Employment

Summer 2022, Verafin, Remote (Toronto, Canada)

- Software Development Internship
- Created projects relating to software development
- Participated in a company hackathon (Won Best Overall Project)
- Worked in teams

Fall 2022, UNA ITS Help Desk: Tier 1

- Interacting with 20+ people daily over the phone, in person, or over email
- Diagnosing issues and submitting tickets for higher tiers
- Fixing issues with multi-factor authentications, passwords, and other small issues

Spring 2023 – Current, UNA Computer Science Tutor

- Interacting with 15+ people weekly
- Helped students understand programming concepts in python and C++

Projects

WAN Network Connectivity

- Successfully connected 2 devices on a simulated WAN using 2 routers

Python - Graph generator utilizing Dijkstra's Algorithm

- Generated a graph that resembled a road
- Used Dijkstra's Algorithm to find the shortest path between two places
- Highlights the path red and displays the graph in pdf format

C++ - User account simulator

- Simulates a user account system that keeps up with usernames and passwords in an encrypted text file
- Allows an account to be added and deleted

C++ and R - count sort tester

- Used a large amount of data to test the count sort algorithm and recorded the results in a csv file
- Used R to analyze and generate graphs of that csv file
